

Dear Potential Sponsor,

We are C.A.R.S.S., a middle school through high school robotics team representing Covenant Christian School. Our goal is to inspire students to pursue careers in STEM—Science, Technology, Engineering, and Math- while developing teamwork, creativity, and leadership skills.

Our team competes in the B.E.S.T. (Boosting Engineering, Science, and Technology) Robotics Competition, as well as Battle Bots. These are six-week national challenge where students design, build, and program robots from limited resources to complete engineering tasks. Teams are also judged on marketing, presentation, and design excellence—offering students a unique blend of engineering, business, and communication experience.

C.A.R.S.S. has a strong record of success:

2024-2025 Season

- 1st Place Middle School Robot & BEST Award -Hub
- Regional Middle School Champions
- 1st Place Most Robust Design
- 3rd Place Engineering Notebook - Regional
- 2nd Place Safety Award
- 3rd Place BEST Mascot

2023-2024 Season

- 1st Place Exhibit Design & Construction
- 2nd Place Website Design
- 3rd Place Spirit & Sportsmanship

Your sponsorship directly supports materials, travel, and competition costs not covered by grants or public funding. Past sponsors have helped by providing funding, food, materials, and lodging for competitions. In appreciation, your business will be featured on our website, in our presentations and booth, on team shirts, banners and promoted through the B.E.S.T. Robotics network.

We would love to meet or email/call and discuss partnership opportunities that help both our students and your company. Thank you for investing in the next generation of innovators—our future is in your hands.

C.A.R.S.S. – Covenant Christian School Robotics Team
